## RATES IN EFFECT AS OF: Friday, May 17, 2024

We use two different terms to tell you how much interest we pay:

- Interest Rate: Annualized simple percentage rate we pay on your account, and does not reflect compound interest.
- Annual Percentage Yield (APY): Annualized percentage rate we pay on your account, including compound interest. (Compound interest is the interest paid on interest you've already earned.) The APY may be higher than the Interest Rate.

BUSINESS CERTIFICATES OF DEPOSIT (CD) INTEREST RATES
CD rates are fixed for the selected term and compounded daily. Business checking and savings account rates are variable and interest compounded and credited monthly. Account fees could reduce earnings. Interest is compounded daily and you may choose to have interest paid on your CD , depending on the term, either monthly, quarterly, semiannually or annually and at maturity. The APY is based upon the maximum term of deposit for each maturity range. There is a penalty for early withdrawal. In the below chart, term change occurs when a CD matures and you change your CD term as part of renogatiation.

IMPORTANT: Not all terms may be available for new accounts or if you change your term when your CD matures
