³ **Important details about your Chase Debit Card Coverage:** An everyday debit card transaction is a one-time purchase or payment, such as groceries, gasoline or dining out, and includes PIN and non-PIN point-of-sale transactions. We will charge an Insufficient Funds Fee of \$34 each time we pay an overdraft created by check, ACH, in-person withdrawal, debit card transaction or other electronic means. We will charge a Returned Item Fee of \$34 for any check or ACH transaction that we return unpaid because your account had insufficient funds. The most you would pay is three of these fees per day for insufficient funds or returned items, no matter the number of transactions. If the same item is returned multiple times, only one fee will be charged for that item within a 30-day period. We will not charge an Insufficient Funds Fee if your ending account balance is overdrawn by \$5 or less. Additionally, even if your account balance is overdrawn, we will not charge an Insufficient Funds or Returned Item Fee for any items that are \$5 or less. Also, each time your account is overdrawn for 5 consecutive business days, we will charge you an additional \$15 (Extended Overdraft Fee). Once an overdraft has occurred, you are obligated to bring your account to a positive balance promptly. Whether your overdraft will be paid is at Chase's discretion, and we reserve the right not to pay. For example, we typically do not pay overdrafts if your account is not in good standing, or you are not making regular deposits, or you have had excessive overdrafts. Whether or not you choose to have your everyday debit card transactions covered, the way we treat your recurring debit card transactions (such as monthly movie rentals, gym memberships or subscriptions) when you don't have enough money in your account will not be affected. We may, at our discretion, authorize and pay a recurring debit card transaction that causes an overdraft and charge an Insufficient Funds Fee.
