

GETTING STARTED

STEP 01/04

Download the Chase Mobile App

To get started, **text “mobile” to 24273**, and you’ll receive a link to download the Chase Mobile® app. It can also be downloaded through your mobile device’s **app store**.

Note: Available for Apple and Android devices.

STEP 02/04

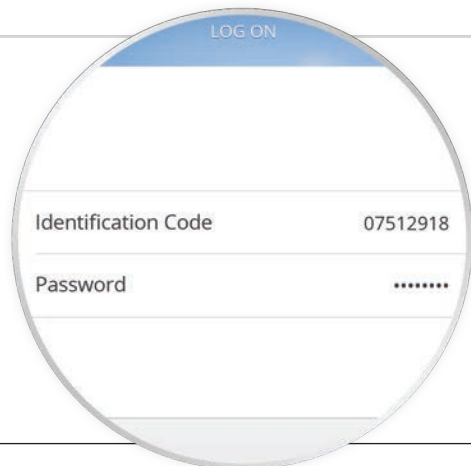

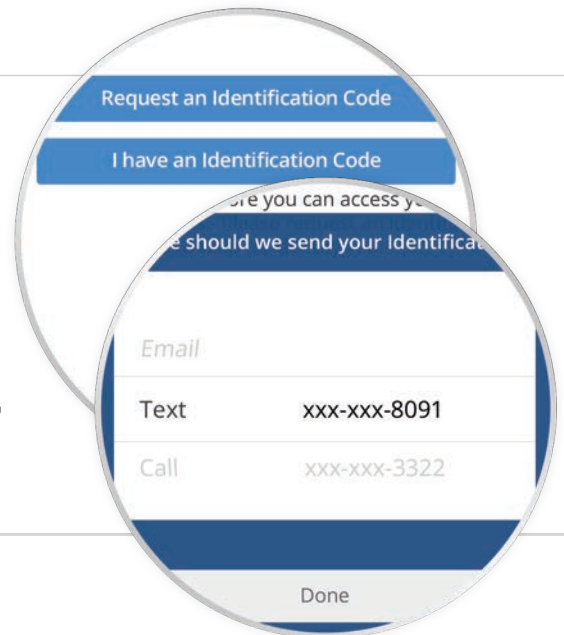

Log On

Once you’ve downloaded the app, **log on using your Chase.com user ID and password**. If you don’t already have a username and password, you can create one by visiting Chase.com on your tablet or computer.

STEP 03/04

Verify your Identity and Register your Device

If it’s your first time using the app, you’ll need to **register your device**. Click **“Request an Identification Code.”** Then **select how you would like to receive your 8-digit verification code**, based on the contact information you already provided.

STEP 04/04

Enter your Verification Code

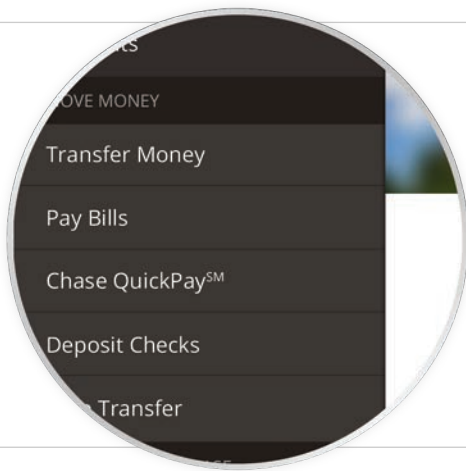

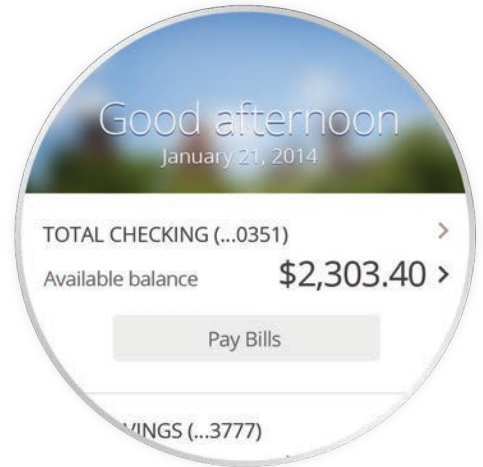

Once you receive your verification code, **enter it in the space provided, along with your password** – and now you’re ready to go.

CHASE MOBILE APP OVERVIEW

The Chase Mobile App Home Screen

The Chase Mobile app is designed for you to do more banking in less time, especially while on the go... Like checking the balance and transactions for each of your accounts - including your Chase cards...

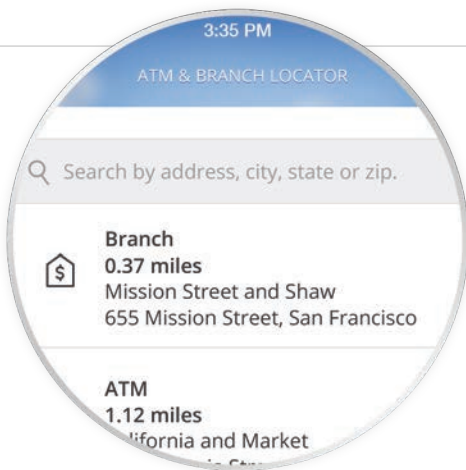

Payments & Transfers

The “Transfer Money” option lets you move funds from one Chase account to another. You can pay your bills in a few simple steps by selecting “Pay Bills.” Or you can pay someone straight from your mobile device by selecting Chase QuickPaySM.

Depositing Checks

You can also deposit a check like you’re snapping a photo, with Chase QuickDepositSM...

Find a Branch

And finally, locate the nearest Chase branch or ATM from almost anywhere.
