

TRANSFERRING MONEY

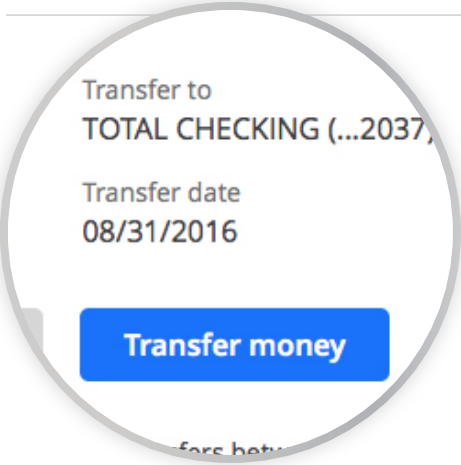

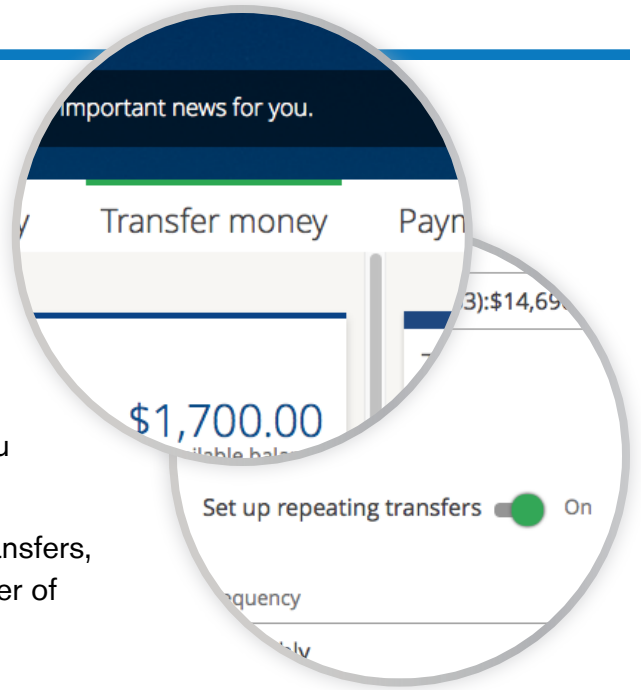

STEP 01/03

Set Up Your Transfer

To transfer money, select **“Transfer Money”** from the **Accounts Dashboard**.

On the “Transfer Money” page, choose which accounts you want to transfer to and from and enter the amount.

You can perform a one-time transfer or set up repeating transfers, through which you can customize the frequency and number of transfers. **Select a transfer date and click “Next.”**

STEP 02/03

Verify and Confirm Your Transfer

Click “Transfer Money” on the verification page if the information is correct. You’ll then see a confirmation page along with a transaction number for your reference.

You can even set up external bank accounts to transfer money between your eligible Chase and non-Chase accounts within the “Transfer Money” tab.

STEP 03/03

Sign Out

To help protect your account information, it's important to properly sign out when you're finished banking online.
